EURASIAN PEOPLES'
ASSEMBLY - 2021

LABORATORIO SOCIAL COEDPA

PROJECTS PORTFOLIO

¿WHAT IS THE COEDPA LAB?

The COEDPA Lab is an **experimental, shared space** that involves the participation and involvement of different sectors and social actors. **Proposals and ideas** are generated with innovation and creativity to construct **resilient, sustainable, and safer societies**. The Lab uses communication tools, offering education and allowing participation from its members.

COEDPA LAB OBJECTIVE

To promote **collective actions** from different local and international community members by favoring an **open, transdisciplinary, and transformative space** to create and execute ideas to address **social-ecological challenges**.

COEDPA LAB GOALS

- To manifest the necessity and urgency to open **transdisciplinary university spaces**, to create strategic responses to complex local and **global social-ecological challenges**.
- To promote the **connection** between the academic, professional, social, and scientific sectors.
- To facilitate an **open, thoughtful and space shared** to promote ideas, create projects, and divulgation of knowledge.
- To involve the participation of **different sectors** and social agents through the transfer of circular knowledge.

PROJECTS PORTFOLIO

LANGUAGES OF WORK

- Spanish
- English

ASSOCIATIONS

The COEDPA Lab is part of the University of Cádiz and the Sustainable Social Development University Institute of Research (INDESS).

The associated entities of the COEDPA Social Laboratory are the Spanish Institute for Disaster Reduction -IERD-, the Technical Secretariat for Social Action, Social Responsibility and Equality of the Independent Trade Union Center and of Officials of Cádiz -CSIF-Cádiz- and the College of Professionals of Occupational Therapists of Andalusia.

Likewise, Lab COEDPA has the support of other collaborating entities to carry out joint activities: CEIMAR, the Delegate of the Rector for the European University of the Seas, the Vice-Rector for Internationalization and the International Cooperation Office of the UCA, the Research Group PAIDI HUM 509 Phoenix Mediterránea, the Cádiz City Council, the Area of Ecological Transition and Sustainable Urban Development of the Diputación de Cádiz, the territorial Delegation of the Junta de Andalucía in Cádiz, the Asociación de la Prensa de Cádiz, the Professional Association of Journalists Andalusia or the Andalusian Studies Foundation.

PROJECTS PORTFOLIO

AREAS OF INTEREST

The COEDPA Lab is open to the creation of ideas and projects from its collaborators. The main central themes that are addressed in the current projects are:

- **Green Agenda:** projects with the primary objective of promoting more sustainable practices and communities.
- **Blue Agenda:** projects to support and share knowledge about oceans and other water bodies.
- **Risk awareness and building resilience:** projects aiming to improve the understanding of natural and anthropogenic risk and improve and adapt our communities to increase resilience.
- **Ecological tourism:** the COEDPA Lab is engaged in promoting safe, blue, and green tourism to increase tourism's sustainability.
- **Sustainable development goals:** the promotion and adhesion of the SDG is a top priority in the COEDPA Lab.
- **Scientific divulgation:** the COEDPA Lab has built a platform and community to share scientific and cultural knowledge.
- **Youth engagement:** Due to the importance of addressing and sharing knowledge with young professionals and students, the COEDPA Lab has a priority project involving this generational group.

PROJECTS PORTFOLIO

The COEDPA Lab presents several projects and initiatives that may be of interest to the Eurasian People's Assembly. These projects are online with the Lab and the Assembly's areas of interest and present an excellent opportunity to engage in collaborative work.

New ideas, projects and initiatives are welcome and encouraged. The COEDPA Lab is willing to collaborate with different councils, or on-going projects from the Eurasian People's Assembly.

ACTIVITIES AND INITIATIVES

PROJECT NAME: EUROPEAN MARITIME DAY (EMD) IN MY COUNTRY

STATE: ON-GOING

LANGUAGE: SPANISH / ENGLISH

PERIOD: MAY 17 - 21ST

Description:

The European Maritime Day (EMD) Conference is the annual two-day event during which the European maritime community comes together to network, discuss and forge joint action on maritime affairs and the sustainable blue economy.

Since the organization of this conference, which this year will be held in Den Helder (Holland), professionals, companies, governments, public institutions, NGOs and the academic world are invited to replicate events at a local, regional and national level. To find out more about this event you can go to https://ec.europa.eu/maritimeaffairs/maritimeday/index_en.

We have presented the following proposal to the European call, to which we incorporate activities that we have already carried out in the previous call:

- **Yincana Virtual Blue and Safe Tourism** - The PC game developed by Lab COEPA researchers, its associated entities and collaborating institutions, consists of individually performing 10 online tests in a maximum of 50 minutes through a digital tour of some of the most significant enclaves of the city, which put in value the coastal tourist resources, as well as the business network related to the sea, emphasizing the environmental commitment and the prevention of risks on the Cadiz coast.
- **ConservAcción game for beach cleaning** - The educational game for PC (Spanish/English) of low difficulty is recommended for all ages and has been developed by two of our external collaborators with the aim of raising public awareness of the importance of keeping the beaches and ocean clean in a city, playful way; since the sea constitutes an essential part of our ecosystem and a very important source for tourism.
- **Promote the Decalogue of the Ocean** - The objective is to promote individual and collective commitment, especially of young people, at a personal and institutional level for the conservation of the seas and to encourage actions for the promotion of citizen science.

ACTIVITIES AND INITIATIVES

PROJECT NAME: EUROPEAN MARITIME DAY (EMD) IN MY COUNTRY

- **Workshops 'Un Mar de Cosas' (A Sea of Things)** - El objetivo principal es promocionar el ocio, el bienestar y la calidad de vida a través del desempeño ocupacional de participación social de actividades relacionadas con nuestro entorno marino y costero. En el marco de la iniciativa 'Bolsas ConCiencia' se pretende promocionar acciones en referencia a los Objetivos de Desarrollo Sostenible (ODS) de la Agenda 2030 de Naciones Unidas.
- **II International Conference on Risk Reduction on our coastlines** - This initiative has the support of CEIMAR·UCA and it is estimated that it will be held online between June and July 2021. As in the previous edition, the participation of the Cádiz City Council is proposed in the inauguration and/or conference tables, the program will be shared in the next few months.

This activity is endorsed by the European Commission.

Objective

The purpose of the event is to promote and value the coastal tourist resources, as well as the business network related to the sea, emphasizing the environmental commitment and the prevention of risks.

Examples:

Yincana Virtual Blue and Safe Tourism

Workshops 'Un Mar de Cosas'

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can collaborate by sending guest experts to participate in the webinar and promote the activity in their social media and communication outlets.

Decalogue of the Ocean

ACTIVITIES AND INITIATIVES

PROJECT NAME: EUROPEAN GREEN WEEK WEBINAR

STATE: ON-GOING
LANGUAGE: ENGLISH
PERIOD: MAY 5TH

Description:

It will consist of a Webinar, “Sharing knowledge about environmental states from different countries.” with environmental experts’ participation that will share the environmental realities and practices from their origin countries:

Costa Rica, Myanmar, Spain, and Russia. The activity’s objective is to promote cooperation for sustainable development and share knowledge from diverse socio-economic realities.

Objective

To promote scientific divulgation and cooperation from different countries inside and outside the European Union.

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can collaborate with the participation of experts in different areas and themes. The Eurasian people assembly can also collaborate with the divulgation of the webinar.

ACTIVITIES AND INITIATIVES

PROJECT NAME: **GREEN LINES**

STATE: ON-GOING

LANGUAGE: ENGLISH/
SPANISH/PORTUGUESE/
RUSSIAN

PERIOD: ON-GOING

Description:

The project is a map with a proposal of routes that connect different urban green areas (parks, garden, etc.) and information about the installations (Playground, exercise areas, dog parks, etc.) located in each area.

The project is under development for Cádiz, Spain, by the COEDPA Lab in partnership with Cádiz's Municipality.

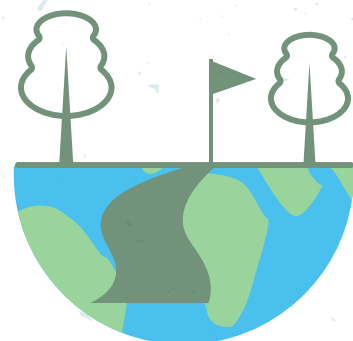

Objective

To give the population of cities knowledge about urban ecosystems to promote their use to improve human well-being.

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can “copycat” the project for other Eurasian communities and cities by recruiting volunteers with Geographical Information Systems knowledge. The COEDPA Lab can help with a workshop or webinar to explain the importance of urban green areas and the methodology for creating the Green Lines map.

Examples:

ACTIVITIES AND INITIATIVES

PROJECT NAME: GUIDE FOR RESILIENT AND SUSTAINABLE CITIES

Description:

The project consists of creating a guide of good practices in sustainability and risk management for urban areas. The guide will be divided into five sections:

- Urban ecosystem services and their importance for human well-being.
- Ecosystem-based management for urban areas.
- Risk management for urban areas.
- Communication for civil society.
- Implementation of the concept in local governments.

STATE: UNDER DEVELOPMENT

LANGUAGE: ENGLISH/ SPANISH/PORTUGUESE/ RUSSIAN

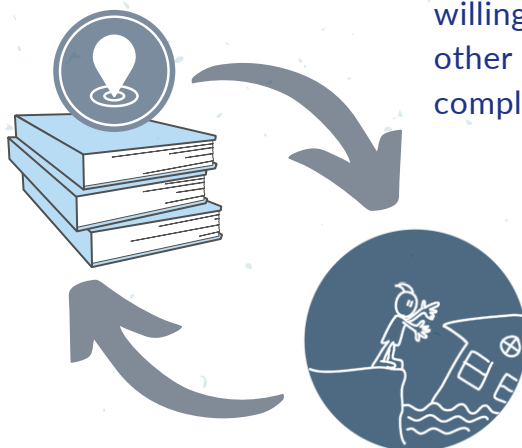

PERIOD: SECOND SEMESTER OF 2021

Objective

To create a guide for sustainable and resilient cities aim to the improvement of the citizen's well-being.

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can finance the creation and publication of the guide. It will also disseminate and promote the guide through the Eurasian region. The Laboratory will create the guide in Spanish, and the Eurasian People assembly can collaborate with the translation of the guide to any language it deems necessary. The laboratory will be willing to participate in workshops or any other activity to promote the guide after its completion.

ACTIVITIES AND INITIATIVES

PROJECT NAME: **DANDO CAÑA A LA CIENCIA**

Description:

The project will consist of a podcast about environmental and scientific themes to make accessible information to the central public.

It will have hosts and guests who will talk about specific subjects with an informal language and focus on implementing sustainable civil society practices.

STATE: UNDER DEVELOPMENT

LANGUAGE: SPANISH

PERIOD: BIWEEKLY

Objective

To promote environmental and scientific practices for everyday life by informal conversations between experts in podcast format.

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can collaborate by sending guest experts to participate in the podcast and promote the initiative in their social media and communication outlets.

ACTIVITIES AND INITIATIVES

PROJECT NAME: MAREA CULTURAL

STATE: ON-GOING
LANGUAGE: SPANISH/ PORTUGUESE
PERIOD: CURRENT

Description:

It aims to share movies, books, stories, or any other format that can bring personal gain to our followers and collaborators. The shared material looks to increase awareness in one or more of the Lab's areas of interest.

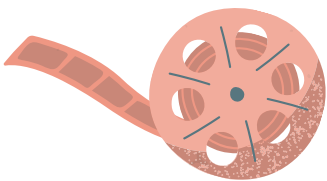

The information is divulged through Instagram posts, where the community has been steadily growing.

Objective

To share information about other cultures, environmental practices, or anniversaries with a personal perspective.

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can collaborate with the information that you wish to divulge. Any project, movie, book, or experience aligned with the Lab's objectives can be disseminated through social media. The Laboratory and Assembly can organize online book clubs or movie reviews to share opinions on different topics.

"Marea Cultural" in celebration of International Education Day (January 24)

ACTIVITIES AND INITIATIVES

PROJECT NAME: **CIENCIA Y CAFÉ**

STATE: ON-GOING
LANGUAGE: SPANISH/
 PORTUGUESE
PERIOD: CURRENT

Description:

Its goal is to share scientific and technical information with the public inside and outside of academia. It aims to raise awareness about environmental issues in everyday life.

The project is executed as a webinar where an expert is interviewed about different subjects like Marine Spatial Planning, sustainable tourism, public policies, etc.

Objective

To do scientific divulgation for the public with the aim of shared technical knowledge in colloquial terms.

How can the Eurasian People assembly collaborate?

The Eurasian People assembly can collaborate with the participation of experts in different areas and themes. The Lab can expand the language to Russian and English, to include more participants.

The Eurasian peoples assembly can also collaborate with the divulgation of Ciencia y Café.

ACTIVITIES AND INITIATIVES

PROJECT NAME: **MAR DE MUJERES**

STATE: ON DEVELOPMENT

LANGUAGE: SPANISH/
ENGLISH/PORTUGUESE

PERIOD: CURRENT

Description:

The project will consist of a webinar with guest experts on ocean and coastal research to discuss their experience as women researchers in STEAM areas.

The objective is to promote women's role in these areas that male researchers traditionally dominate.

Objective

To promote the role of women in STEM areas with a focus on ocean and coastal studies.

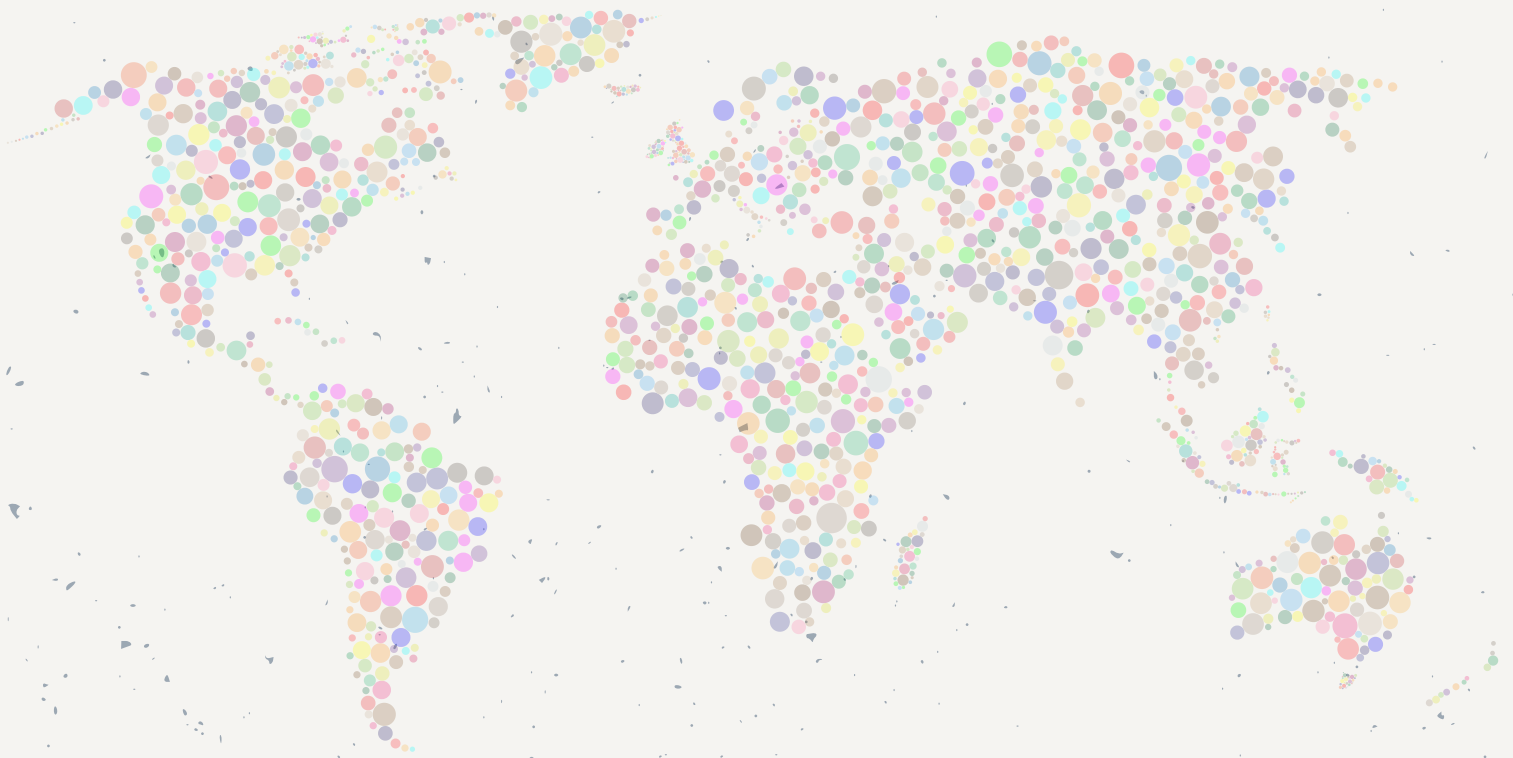

How can the Eurasian People assembly collaborate?

The Eurasian Peoples' assembly can collaborate by sending guest experts to participate in the webinar and promote the activity in their social media and communication outlets.

This activity is endorsed by the United Nations Decade of Ocean Science for Sustainable Development
